

Even for 2012 was renewed the membership with Torino Piemonte Aerospace in collaboration with the Chamber of Commerce of Turin.

Therefore we will be present in different production sectors in collaboration with other Companies who are part of this “Project”, trying to satisfy the demands of European and World markets with particular attention to the construction of aluminum / titanium parts and to the design and manufacturing of assembly jigs for the Aeronautical and Space sectors.

You will find a specific section concerning “Assembly Jigs”. with descriptions and pictures in the website.
